Toiletries For Families is a local nonprofit organization filling the gap between needs and provisions by providing hygiene essentials to families affected by the effects of poverty and disaster.

Toiletries For Families was founded in 2010 with no idea of what was in store. Initially, the goal was to provide hygiene items to 10 families before Christmas 2010, so they would confidently attend church, or family dinner without worrying about odor or cleanliness.

To date, TFF has distributed over 20,000 kits in Texas and reached individuals and families in 15 other states and 5 countries. The founder's FedEx Ground discount has been helpful in shipping relief kits to families afar.

Toiletries For Families continues to bring immediate temporary relief to families and individuals impacted by the disastrous hurricane that wreaked havoc ranging from damaged homes and vehicles to death.

TFF has depleted their inventory and relied on the generosity of supporters on a local and national basis. As packages continue to be received of items to be sorted and packed for relief kits, TFF has received an abundance of physical support yielding 20 volunteers within a moment's notice during the Labor Day weekend.
