

Use the BBB directory to find high-rated contractors

Wednesday, September 13, 2017

HOUSTON, Texas (KTRK) --

With so many contractors out there competing for your business, the [Better Business Bureau](#) has made a list of all accredited businesses that have a good rating with the organization.

Accredited businesses have gone through extra levels of scrutiny and background checks.

If you need air conditioning contractors, foundation repairs, electricians and plumbers, the BBB has organized the list by specialty.

Check out the BBB directory.:
